Overview

✔ Mature security governance via **ISO/IEC 27001**

✔ Legal data protection alignment via **General Data Protection Regulation (GDPR)** & ICO registration

✔ Certified infrastructure (multi-DC ISO 27001 compliance – BSI & LR audited)

✔ Strong encryption controls using **Advanced Encryption Standard (AES-256)** for data at rest & in transit

✔ Multi-Factor Authentication (MFA) for access hardening

✔ Ransomware protection with versioned restore capability

✔ Automated backup (set-and-forget scheduling)

✔ Multi-location backup (cloud + local for DR resilience)

✔ Storage efficiency via compression & deduplication
